From the desk of the Fire Chief

During the Fourth of July holiday events, we would like to send a reminder to everyone concerning the use of fireworks. The City of Rupert only allows “Safe and Sane” fireworks to be sold and lit within the City limits. These can be recognized by the “Safe and Sane” logo on the package. Kids should be supervised around all fireworks remembering that 80% of all emergency room fireworks injuries involve fireworks consumers are permitted to use. Sparklers are the number one cause of injury to kids due to the intense heat they create. They typically burn at 1200 degrees F when glass melts at 900 degrees F. With the proper use of these fireworks, your family can enjoy hours of entertainment. Stay safe and have fun!
